75 Caribbean

Why the smaller islands of the Caribbean, such as Mustique
and Grenada, are big on benefits

The Cotton House Hotel

Following a complete update, the picture-perfect Cotton House has been restored to its rightful place at the heart of the island of Mustique

TRISTAN AUER, FAMED for his stellar line up of design work on the Hotel de Crillon and the Hotel Les Bains amongst others, has worked his magic on the renowned Cotton House Hotel. This has included a full renovation of The Great Room, Verandah Restaurant and The Residence, as well as the launch of the Beach Café and most recently the unveiling of new Duplex Suites. His inspiration has come from Oliver Messel's original villa

designs and the resulting style is quintessentially colonial Caribbean in design with a slightly theatrical feel in terms of layout.

Guests may choose to stay in the 13-bedroom boutique Cotton House with their own suite and plunge pool, or rent one of the exclusive hideaways in The Villa Collection and indulge in the privacy of their own fully staffed villa. Offshore activities include swimming, scuba diving, sailing and snorkelling with the turtles at nearby Tobago Cays. Onshore, guests can ride horses along the beaches, hone their tennis skills at the exclusive Mustique Tennis Club, enjoy complimentary use of the hotel's well-equipped gym or indulge in a pampering spa treatment.

The Cotton House Spa offers a bespoke range of treatments, many of which have been designed

exclusively using the island's natural ingredients such as Moringa and Baobab trees, ylang ylang, sweet jasmine and frangipani. The spa has four treatment rooms and a relaxation room with stunning sea views. Alternatively, treatments can be enjoyed in the privacy of a guest's room or villa by arrangement. ■

Musique has a very well preserved and uncommercial natural environment, is incredibly safe and has a wide range of different properties

Callaloo, Musique, Saint Vincent and the Grenadines

Inspired by the pre-eminent artist and theatrical set designer, Oliver Messel, this property is in the Endeavour Hills. It makes the most of its vantage point, with dramatic views over Musique and out to the Caribbean Sea and neighbouring islands.

Retaining an elegant whitewashed Caribbean style that echoes the original Musique, Callaloo offers light and bright, open plan accommodation, wide terraces, decked areas and loggias. These flow seamlessly together to create the sought after inside-outside accommodation that works so well in the tropics. Five bedroom suites, reception rooms, a swimming pool and terraces all have spectacular sea views.
